## Welcome!

As many customers will have realised, Commercial Science has undergone a rebranding into Good Vitality, which is fast becoming the place to buy a wide range of health promoting products.

Existing customers can rest assured that the high standards of quality and service that brought them back time and again to Commercial Science still exist and are enshrined in everything that we do at Good Vitality - where your health matters.

In this issue we have gift ideas for Christmas, updates of the EU Food Supplement Directive and more.

We hope that you enjoy this newsletter and look forward to sending you another edition in the New Year.

### Bird 'flu.

As this newsletter is going to print, reports are circulating in the media about bird 'flu hitting the UK shores. A number of people have already died in Asia, and there are claims that this variant could claim hundreds of thousands of lives world wide.

Good Vitality are confident that colloidal silver will be an effective method of preventing infection by this strain of the 'flu virus.

Chris Hyslop says: "I take 15ml of the yellow high grade colloidal silver daily, placed under the tongue. I make the solution with my Becks Silver Maker/Zapper.

"As soon as there are any signs of the virus, I will also start Zapping for 20mins every day, which is enough time to Zap all of my blood and hence fight off the virus."

Colloidal silver is exceptionally simple to make, and all of the active apparatus can be bought from [www.goodvitality.com](http://www.goodvitality.com). All that you will need to supply is water!

### Virus linked to obesity.

A virus, known as AD35, usually caused mild respiratory infections but has now been linked to obesity.

A researcher at the University of Wisconsin-Madison conducted a study on 105 obese patients and 23 lean people, and discovered that 18% of the obese patients showed no signs of the high cholesterol levels usually seen in clinically overweight people. They did however display signs of Ad-35 infection.

The implications of this discovery are enormous and further research into the role AD-35 plays in obesity is due to begin shortly.

Customers using the Becks/Clarks Zapper protocols are likely to protect themselves from the Ad-35 virus, and hence may be able to protect themselves from obesity. It must be stressed that this is not a 'cure-all' for obese conditions and that a healthy diet and lifestyle should be maintained to keep the body in optimum condition.

## Gift ideas with a healthy difference from Good Vitality

With Christmas just around the corner, **Good Vitality** is delighted to bring you a range of gift ideas for your nearest and dearest.

As a perfect gift for the gadget obsessed, we are delighted to offer the popular Electromagnetic frequency detectors (EMF Detector).

EMF radiation is emitted by any live current flowing through wires or appliances. Therefore, if there is a hidden electrical cable running through the wall by the bed head, this could be enough to disturb sleep as the body's natural electronic field is disrupted. The EMF detector will quickly and simply indicate any sources of electromagnetic radiation and allow steps to be taken to avoid the radiation. It has long been thought that living under power lines increases your risk of cancer.

Priced at £39.95, this is the perfect gift to help loved ones enjoy good vitality.

While the Christmas period is generally one of celebration, many people find their festivities blighted by colds and other winter illnesses. To help prevent these, why not purchase a basic colloidal silver maker?

The performance of colloidal silver, whether in liquid or gel form, has continued to amaze, and its applications are almost unlimited. From curing mouth ulcers and boils through to fighting off colds and other viruses, it is fast becoming the first remedy of choice for the health conscious.

The **Good Vitality** Colloidal Silver maker is simple to use and cost effective. Full details on how to make colloidal silver solution can be found on the **Good Vitality** website - [www.goodvitality.com](http://www.goodvitality.com). The basic colloidal silver maker

costs just £45.50, making it a perfect addition to the present pile under any Christmas tree.

Since not everyone is into 'gadgets', **Good Vitality** is delighted to bring a wide range of new products to the Christmas market. Enclosed with this newsletter, customers will discover a leaflet detailing the new range of preservative and toxin free hand made toiletries. These are made from the finest natural materials and are designed to offer the highest standards of cosmetic performance, while also being completely toxin free and harmless.

And of course, there is the remarkable i-Lift gel, which has proved extremely popular with orders flooding in from both the last newsletter and the **Good Vitality** website ([www.goodvitality.com](http://www.goodvitality.com)). This product is fully toxin free and gently firms and tightens the skin around the eyes for that 'fresh eyed' look. The effects last for up to seven hours at a time, removing the signs of fine lines and wrinkles.

In the few months that it has been on sale, i-Lift has generated a large number of satisfied customer testimonials and a wide fan base. The 5ml syringe lasts a long time, as a little really does go a long way, and customers are finding that they only have to use tiny amounts to achieve the desired result.

At £14.95 per 5ml, this is a surprisingly inexpensive way to remain looking beautiful, no matter how hard the party the night before was...

In a similar fashion, D101 wrinkle repair cream has been a fast seller in recent months. This rich cream acts to restore the youthfulness of the skin from the inside. As we get older, the collagen fibres in the skin stretch and lose their elasticity - hence sags and wrinkles.

D101 is a natural preparation, made exclusively from non-allergenic ingredients. The ingredients are very expensive, but **Good Vitality** is able to produce D101 for just £15 a tub - ideal to slip into someone's stocking this Christmas.

For further ideas for health-related presents, please see the **Good Vitality** website - [www.goodvitality.com](http://www.goodvitality.com)

## **Vitamins update.**

There has been much in the healthcare news recently about the Food Supplement Directive, concerning the sale of vitamin supplements.

On 12 July this year, the European Court of Justice ruled that the Directive was to be upheld, and therefore the sale of some vitamin and mineral supplements in this country would be stopped.

In the light of this, a number of ingredients dossiers were submitted to the Food Standards Agency, who in turn forwarded them to the European Food Safety Authority. Following close examination, the range of Solgar vitamins and minerals has come through virtually unscathed and, with a few reformulations, can continue to be sold in the UK.

The range of Solgar vitamins and minerals is available on the **Good Vitality** website - [www.goodvitality.com](http://www.goodvitality.com) - and detailed advice on their use can be gained by calling 01293 446244.

---

## **Postage Rates**

Good Vitality has had to introduce new postage rates for all of its products.

Postage rates have increased dramatically over the past 18 months, and postage rates have had to be adjusted accordingly.

Expensive items (for instance the Zapper ranges) are now being shipped by registered post to ensure fast and safe delivery.

The good news for customers is that the postage rate calculator on [www.goodvitality.com](http://www.goodvitality.com) will perform all of the calculations, delivering a result in moments. If you are still unsure, then please telephone 01293 446244 for advice.

---

## Customer testimonials

The Good Vitality team receive a number of testimonials every week, updating them on customers' progress with their purchases. Two of the most recent are reproduced below.

Every testimonial printed receives a FREE jar of D101 cream.

Mrs A writes:

"I thought that I would drop you a line to tell you about a 'miracle' that I experienced recently.

Following a contretemps with a lawnmower some months back, my 85-year old stepfather was frustrated at the length of time the damage was taking to heal properly - the healing process may have been slowed by the diabetes which he had been living with for the past 45 years.

I decided to take my magnetic pulsar with me for him to try. When I arrived at the house, his hand was still swollen and fingers stiff from arthritis (although he said that it looked like a boxing glove previously!).

After just 20 minutes using the pulsar, my stepfather closed his fist and gave out a great yell - it was the first time that he'd managed this relatively simple feat in over 20 years! Gobsnacked was an underestimation! We then tried it on his other arthritic hand, which responded in a similar fashion. I then followed by using it on his back, neck and shoulders.

By the time I had finished using the magnetic pulsar on the rest of his body, he had made up his mind that he wanted one of his own!

Thank you for making an old man very happy!"

Chris Hyslop says: *"I am delighted to hear about this, and have had many similar reports of the effectiveness of the magnetic pulsar. For further details, or to order one for yourself, please visit [www.goodvitality.com](http://www.goodvitality.com)"*

Mr C writes:

Chris,

"I contacted you some time back concerning severe pains I'd been experiencing in my chest and arm joints. I'd been working out in Iraq and have been a heavy cigarette smoker for some years.

You suggested that I try the Aura Cleaner, with the five minute chip installed. Therefore, I bought one and used it on myself last night for the first time, but only for 30 minutes.

I must say that the results are incredible. Although I need to pee much more than usual, I feel absolutely fantastic and I have no pain in my chest or arm for the first time in a long time!

Thank you for your help."

Chris Hyslop says: *"I must point out that Mr C had had the pains checked by a doctor and was not suffering from a heart complaint, however I am delighted that the Aura Cleanser had such a profound effect on him. It just goes to show the versatility of the device."*
